

PRO X UNIVERSAL TRACTOR FLUID

MULTIPURPOSE TRACTOR FLUID

PRODUCT DESCRIPTION

High Quality Multi-functional Fluid For Use In All Agricultural Equipment

PRO X Universal Tractor Fluid has been carefully formulated to meet the demanding antiwear and frictional requirements of all typical agricultural equipment that utilize a common-reservoir fluid for multiple lubricated systems.

PRODUCT APPLICATION

- Modern tractors (gas or diesel) that require a common-reservoir fluid
- Legacy tractors that call for a simple universal fluid
- Other agricultural equipment (such as combines) that utilize a universal tractor fluid
- Off-road construction equipment that uses this type of oil
- Mining and forestry equipment that calls for a product like this for hydraulics or gears
- General purpose hydraulic oil

FEATURES AND BENEFITS

- **Wear Prevention:** Remarkably high level of Zinc antiwear additive protects hydraulic pumps, tractor gears, and power steering systems from metal-to-metal contact.
- **Oil Life:** Effective oxidation inhibitor extends fluid life and prevents system-wide sludge, varnish, and deposits.
- **Shear Stability:** High quality VII additives withstand the shearing action of mobile hydraulic pumps and gear sets used in tractors, maintaining the correct viscosity range.
- **Proper Frictional Characteristics:** Specialized additives provide the correct frictional behavior during wet brake performance, reducing chatter and slip.
- **Compatibility:** Formulated to be compatible with all other brands of universal tractor fluid.

TYPICAL TEST DATA

COLOR	AMBER
SPECIFIC GRAVITY	0.882
FLASH POINT, °C (°F)	222 (432)
VISCOSITY AT 40 °C, CST	60
VISCOSITY AT 100°C, CST	9.5
BROOKFIELD VISCOSITY, CP AT -35°C	48,000
VISCOSITY INDEX	140
POUR POINT, °C (°F)	-43 (-45)

SPECIFICATIONS

Recommended for use where the following are cited:

- AGCO Power Fluid 821XL
- Case IH MS1210, MS1209, MS1207, MS1206
- Case New Holland (CNH) MAT3525 (134-D Fluid), MAT3505
- Ford ESN-M2C134-D,
- Ford-New Holland FNHA-2-C-201.00
- International Harvester 86
- John Deere JDM J20C, J14C (Type 303 Fluid)
- Kubota UDT Fluid
- Minneapolis-Moline Q-1722, Q-1766, Q-1766B
- Massey Ferguson CMS M1145/M1143, M1141, M1135, M1129A
- Oliver Q-1705
- Volvo VME WB 101 (VCE 1273.03)
- White Farm Equip. Q-1826

Also Recommended For:

- Denison HF-0, HF-1, HF-2
- ZF TE-ML 03E, 05F, 17E, 21F
- Former Caterpillar TD-2
- API GL-4
